NOSIP 抗原(重组蛋白)

- 中文名称: NOSIP 抗原 (重组蛋白)
- 英文名称: NOSIP Antigen (Recombinant Protein)
- 别名: nitric oxide synthase interacting protein; CGI-25
- 储存: 冷冻(-20℃)
- 相关类别: 抗原

概述

Fusion protein corresponding to a region derived from 1-301 amino acids of human NOSIP

技术规格

Full name:	nitric oxide synthase interacting protein
Synonyms:	CGI-25
Swissprot:	Q9Y314
Gene Accession:	BC009299
Purity:	>85%, as determined by Coomassie blue stained SDS-PAGE
Expression system:	Escherichia coli
Tags:	His tag C-Terminus, GST tag N-Terminus
Background:	The protein encoded by this gene may modulate the activity and loc alization of nitric oxide synthase (endothelial and neuronal) and thus nitric oxide production. Alternative splicing results in multiple transcri pt variants that encode the same protein.
